-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2876

1. Applicant's response filed 2/16/06 has been entered.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1,8,11,12,17,22,23,24,25,26,27,28,29 are rejected under 35 U.S.C. 102(b) as being anticipated by Lewis et al 6,082,616. Lewis discloses an automated banking machine with a housing having sidewalls, a top wall, a rear wall and an interior space (col 3 lines 7-18). There is disclosed a rollout tray 32 (col 3 line 39), i.e. a "frame". On the tray is a display (also interpreted as a light indicator operatively emitting signals), a receipt printer and a fascia (col 3 lines 44-55). There is disclosed an opening for accepting cards in the fascia, a keypad in the fascia (col 3 line 56 – col 4 line 11). It is disclosed that cash may be dispensed (column 2 line 32-40). Although not specifically disclosed in Lewis, at least one computer operably connected to the display, receipt printer, fascia and keypad is inherent.

4. Claims 30-39 allowable over the prior art of record and claims 2-7,9-10,13-16,18-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims for the same reasons as set forth in the previous office action.

5. Applicant's arguments filed 2/16/06 have been fully considered but they are not persuasive. Applicant argues that the fascia of Lewis does not move between an open

Art Unit: 2876

and closed position relative to the tray of Lewis. The examiner does not disagree, however, this is not claimed. The current claims only require that the fascia moves between an open and closed position relative to a frame, not the tray. The examiner concurs that the fascia of Lewis is connected to a moving tray, but the movement of this tray allows for the fascia to be moved from a closed position relative to the frame of Lewis and an open position relative to the frame of Lewis. The tray and the frame of Lewis are not the same element. The frame is that structure which supports the entire apparatus.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl D. Frech whose telephone number is (571) 272-2390. The examiner can normally be reached on maxi-flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Lee can be reached on (571) 272-2398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
